

SPARTAN CONTROLS

Walk-Up SCADA

Not all gas fields need a SCADA system, but all need today's gas measurement technology.

From This...

Dry Flow Recorder

... To This!

FloBoss 103

Transition from the traditional "Dry Flow" Recorder to an Electronic Flow Measurement (EFM) system allows you to:

- Save up to 65% in typical operating costs
- Use your operations people more effectively
- Meet the AEUB's Directive 017 requirements

And,

- It is less capital cost than SCADA systems
- FloBoss103 expands to suit your growing needs

Possible Next Steps

Now that your company has grown and you require real time data to make day-to-day decisions, you are ready for the next step.

No need to reinvest in new measurement devices.

- Add communications system
- Add a PC-based or web-based hosting system

Web Based System

SCADA Host System
